

OPERATIONS MANUAL

REV A October 2002

OPERATOR SAFETY INSTRUCTIONS

WARNING

DANGER: Failure to read and observe all DANGER statements could result in severe bodily injury or death. Read and observe all DANGER statements found in your Owner's Manual and on your machine.

CAUTION: Failure to read and observe all CAUTION statements could result in damage to the machine or to other property. Read and observe all CAUTION statements found in your Owner's Manual and on your machine.

WARNING: Failure to read and observe all WARNING statements could result in injury to you or to other personnel; property damage could occur as well. Read and observe all WARNING statements found in your Owner's Manual and on your machine.

DANGER: Failure to read the Owner's Manual prior to operating or attempting any service or maintenance procedure to your Eagle Power Products machine could result in injury to you or to other personnel; damage to the machine or to other property could occur as well. You must have training in the operation of this machine before using it. If you or your operator(s) cannot read English, have this manual explained fully before attempting to operate this machine.

DANGER: Operating a machine that is not completely or fully assembled could result in injury or property damage. Do not operate this machine until it is completely assembled. Inspect the machine carefully before operation. Use only as described in this manual. Use only Eagle Power Products recommended attachments.

DANGER: Machines can cause an explosion when operated near flammable materials and vapors. Do not use this machine with or near fuels, grain dust, solvents, thinners, or other flammable materials.

DANGER: Using a machine with a damaged power cord could result in an electrocution. Do not use the machine if the power cord is damaged. Do not use the electrical cord to move the machine. Keep cord away from heated surfaces. Do not unplug by pulling on the cord; grasp the plug, not the cord.

DANGER: Electrocution could occur if maintenance and repairs are performed on a unit that is not properly disconnected from the power source. Disconnect the power supply before attempting any maintenance or service.

WARNING: Operating a machine without observing all labels, decals, etc., could result in injury or damage. Read all machine labels before attempting to operate the machine. Make sure all of the labels are attached or fastened to the machine. Get replacement labels and decals from your Eagle Power Products distributor.

WARNING: Electrical components can "short-out" if exposed to water or moisture. Keep the electrical components of the machine dry. Always store the machine in a dry area.

WARNING: Use of this machine to move other objects or to climb on could result in injury to the operator or damage to the machine. Do not use this machine as a step or furniture. Do not allow to be used as a toy. Close attention is necessary when used by or near children.

WARNING: Moving parts of this machine can cause injury and/or damage. Keep hands, feet, loose clothing, hair, fingers, and all parts of the body away from openings and moving parts.

WARNING: Electrocution could occur if you handle the plug or appliance with wet hands. Do not handle plug or appliance with wet hands.

WARNING: Damage could occur to machine if openings are blocked. Do not put any object into openings. Do not usewith any opening blocked; keep free of dust, lint, hair, and anything that may reduce air flow.

WARNING: Injury could occur to the operator or the machine if used without the dust bag and/or filters. Do the machine without the dust bag and/or filters in place.

WARNING: Injury to the operator and/or damage to the machine could occur when cleaning on stairs, xtra caution is used. Use extra caution when cleaning on stairs.

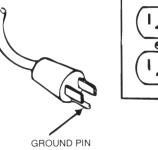

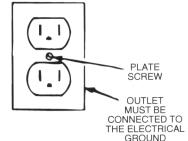

WARNING: To reduce the risk of electrical shock, always use a 3-wire electrical system connected to the al ground. Whenever possible connect the machine to an outlet protected by a ground fault interrupter (GFCI). See "Grounding Instructions."

120 Volt Machine Instructions For Connection To The Power Supply And The Electrical Grou

This machine must be connected to the electrical ground to protect the operator from electric shock.

The machine has an approved power cord with three conductors and a plug with three terminals. Connect the plug to a receptacle that has three holes and is connected to the electrical ground. The green (or green and yellow) conductor in the cord is the ground wire. Never connect thi wire to any terminal other than the ground terminal.

This machine uses a 120 volt AC 60 cycle electrical circuit. Make sure you have the correct frequency and voltage before connecting the power cord to an outlet. The machine has a plug as shown in Figure 1. If a receptacle connected to the electrical ground as shown in Figure 1 is not available, have one installed by an electrical contractor. Do not use an adapter.

WARNING: To reduce the risk of electric shock, protect the machine from rain. Keep the machine in a dry area.

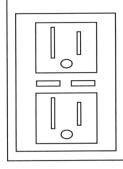

WARNING: To reduce the risk of electric shock, always use a 3-wire electrical system connected to the electrical ground. Whenever possible connect the machine to an outlet protected by a ground fault interrupter (GFCI).

WARNING: Do not cut, remove or break the ground pin. If the outlet does not fit the plug, consult your electrical contractor.

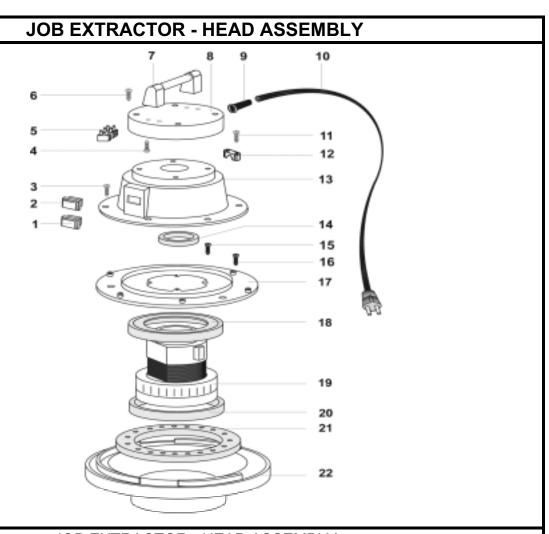

WARNING: Have worn, cut or damaged cords and plugs replaced by an authorized service person.

GFCI Outlet

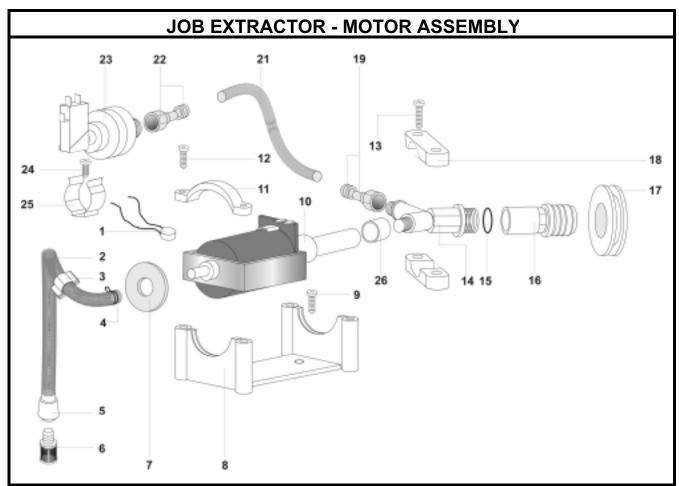

IMPORTANT INSTRUCTIONS

- Before use, the equipment must be correctly assembled with all its components.
- Check that electrical outlet is correct for use with the plug on the machine.
- Before connecting, check that the specified motor voltage corresponds to the main voltage available.
- Never use the equipment near inflammable, explosive or toxic substances: sparks from the motor could cause dangerous reactions.
- Always unplug the machine from electrical outlet when leaving machine unattended or before attempting any repair.
- Service and repair should be done by qualified personnel only. Use only genuine Eagle Power Products replacement parts.

		JOB EXTRACTOR - HEAD ASSEMBLY	
POS.	PART#	DESCRIPTION	QTY.
1	S80756	ANTI-SPLASH SWITCH, GREEN	1
